Wide choice, compact design

With its clear cut, sculptural design, the stylish S line exudes quality and precision in every way. It combines the best of the compact class with elements of the premium segment, including a hint of GIGA. The impressive range of specialities and the stunning result in the cup satisfy even the most demanding coffee connoisseurs. The operating concept is based on simplicity and intelligence. The JURA S line creates a new segment in coffee machines: the premium mid-segment.

The stylish S8 creates the full range of specialities from espresso to latte macchiato to a masterful standard of quality. With just a touch on the color touchscreen display, one of 15 different specialities flows into the cup.

The integrated 4.3" high-resolution colour touchscreen display makes the machine incredibly simple to operate. A gentle touch with your fingertip on the screen, and your favourite beverage flows into the cup.

The new professional fine foam frother on the S8 is made from the highest quality materials and has a stunning look and feel. Specially designed for the preparation of speciality coffees with milk and milk foam.

The Professional Aroma Grinder is now even more precise and twice as fast, yet preserves all the delicious aroma of the coffee beans. The Pulse Extraction Process (P.E.P.®) ensures the optimum extraction time for short specialities like espresso.

Graphics and animations show every step of preparation, guiding the user through the process. The concept is designed to help you find what you want quickly. Individual preferences can be programmed in a few easy steps
